

Who's Protecting You This Winter?

Take control of your budget with PAPCO's
home heating oil price protection plan.

Hurry! Limited Time Offer!

PAPCO's Price Protection Program will "cap" the maximum price you pay per gallon in the 2011-2012 heating season, so you'll be shielded from today's unpredictable fluctuations in energy costs. If the price is below the capped price, *you pay the lower amount!*

Plus, staying warm this winter is easier with PAPCO's Automatic Delivery Plan. Our technology monitors your usage and the weather to determine your next delivery date preventing any disruptions in service.

Keeping Virginians warm since 1976
